SHOCKING TRAGEDY**Miss Laura Parsons Brutally Murdered, Victim of Awful Crime.****Body Found On Lone Mountain Pass**

Miss Laura Parsons, aged 41 years and daughter of Mr. Rock Parsons, who lives near Cartersville in this county, and instructor in Domestic Science in the Pine Mountain Settlement School, twelve miles from Harlan, Ky., was found near a mountain trail with her throat cut, after she had been brutally assaulted.

She had been visiting relatives in this county, returning to her duties Tuesday morning of last week. She left the train at Dillon that morning and started for the school. That was the last seen of her alive.

Body Found Near Camp

Discovery of the crime Thursday night created excitement in this county.

The scene of the murder is but a few hundred yards from a camp in this county where seventy negro convicts, working on the road, are quartered.

Sheriff H. H. Howard Saturday began interrogation of the convicts, Captain Marcus, in charge of the camp, said that all the convicts were accounted for at the time the crime was committed.

Harlan county officers were anxious to get in communication with H. C. Winnes, connected with the government experiment station at the University of Kentucky, Lexington, believing that he may be able to shed some light on the tragedy. He was the last person there to have seen Miss Parsons alive after she alighted from the 1 and N train at Dillon at 11 o'clock Tuesday morning and started across Pine Mountain to the school, a distance of six miles.

The victim, who had been connected with the faculty of the institution since June, had been away since August 1, going to the home of her father, Rock Parsons, a farmer between Lancaster and Richmond, to assist the family in moving to Berea. Her father had moved to Berea this week in order to better educate his children.

Mr. Winnes arrived at the school at 4 o'clock Tuesday afternoon. He said that a woman connected with the school had alighted from the train at Dillon and started walking across the mountain. He had ridden a mule and last saw her about a quarter of a mile from Dillon, he told the school officials.

No word had been received at the school from Miss Parsons that she was returning and it was at first believed that the woman crossing the mountain was another teacher who was expected later. When the woman failed to appear at the school Tuesday night it was believed that Mr. Winnes was mistaken as to the destination of the woman passenger who alighted from the train at Dillon.

Mr. Winnes, who had come to the school to test cows for tuberculosis, returned to Lexington Thursday morning.

Thursday the school authorities became worried and fearing the woman had become lost in the mountains, instituted a search. Fifty men were organized as a searching party. It was agreed that if the woman was found two shots would be fired to summon others.

Will Browning, one of the searchers, working alone through the underbrush, found the mutilated body at 6 o'clock Thursday evening. He gave the signal, drawing other searchers to him. County authorities were notified of the circumstances and began an investigation.

The body was found under a 30-foot ledge over which it had been thrown. A blood stained fence rail, with which the victim was beaten, was lying at her side. Her throat was cut. Evidence was found indicating she was first assaulted. Her purse was missing.

That she had fought desperately for her life was shown by the appearance of the ground over which she had struggled with her slayer. Her arms and body were bruised by the blows of the fence rail.

The body was brought to Harlan and prepared for burial at the undertaking parlors of Harlan Hardware Company.

Besides her father, Miss Parsons is survived by her step-mother and several half-sisters and half-brothers.

SALE CANCELLED.

The Walden farm advertised in our last issue has been deferred to a later date.

COMMUNITY NURSE**Red Cross Chapter Secures services of Miss Eva Westover, of New York.**

The local Red Cross Chapter has begun its peace time program, by securing the services of Miss Eva Westover, of New York state, to do public health nursing in Garrard county.

Her work will embrace supervising the physical development of children under school age, as well as caring for those attending the schools throughout the county.

The Red Cross Chapter is glad to announce that the school authorities of the county are cooperating with this work and helping to make it possible.

It is the chapters plan to organize classes in Home Hygiene and care of the sick in the next few weeks. Miss Westover will be instructor of said classes. The Red Cross has been fortunate in securing an office next to Miss Higgins' offices for nurses headquarters and Miss Westover will be found there every school day morning from 8:30 to 9:00. Also all day on Saturdays.

The Red Cross Chapter of Garrard county feels that it has been very fortunate in securing Miss Westover. She is not only a registered Red Cross nurse, but has had special training for Public Health work and has had wide experience in all phases of community service.

BIG BARBECUE
Alfred Owens Will Put the Burgoo To You Saturday.

Don't forget the Big Barbecue and burgoo of Alfred Owens on Saturday the 19th. Mr. Owens will kill one of his fine Hereford steers and has purchased 225 loaves of bread, and has bought lots of cups, and a big crowd is expected and a great deal of interest is being manifested in the sale of the 300 acres of land which has been subdivided into convenient and attractive tracts. This will be one of the biggest sales ever held in Garrard County and a record breaking crowd is expected to attend. Don't forget that there is a lot of that fine Brakes Creek bottom land to be sold and it should bring a good price.

NEW FIRM
W. B. Walden of Berea, Buys Grocery.

Mr. Roy Sanders, proprietor of Sanders Variety Store, in the Record building, sold this week his entire stock of merchandise and good will to Mr. W. B. Walden, who recently moved into Lancaster from Berea. Mr. Walden is an Attorney at law by profession, and the store will be in charge of Mrs. Walden, who is a daughter of Mr. R. J. Engle, of this city, while he will devote his time to his profession.

The style of the new firm will be "Walden's Sanitary Grocery" and he tells us that it will mean everything that the term implies.

We wish every success for the new firm that was accorded Mr. Sanders and hope they will have no cause to regret having moved to Lancaster, the best town in Central Kentucky.

Mr. Sanders has not decided just when or where he will go in business, but his friends are hoping that he will not leave our city.

Baby Boy.

Mr. and Mrs. Melvin Parson are receiving congratulations over the arrival of a fine boy, who arrived at the home of his grand-parents, Mr. and Mrs. Cronley Broadus, last Sunday, where Mrs. Parson had been living for several weeks.

Buys Lincoln Farm.

Mr. J. Harris Baughman, of Harlanville, has sold his fine farm containing 440 acres, located on the Hanging Fork near McCormick church in Lincoln county to Mr. Hanks Hudson, of this city. It is understood that Mr. Hudson will put in 400 acres of hemp on the place next season. The place has been used for years as a bluegrass cattle farm by Mr. Baughman and is said to be one of the richest in the country.—Danville Advertiser.

MRS. HENRY SIMPSON**Victim Of Auto Accident In Lexington.****DEATH COMES IN FEW MINUTES****AFTER BEING STRUCK BY INTERURBAN.****Well Known Here.**

This city was severely shocked when a telephone message came from Lexington yesterday afternoon, stating that Mrs. Henry Simpson had just been killed in an auto accident, which occurred near her home on the Versailles pike near Lexington.

Mr. and Mrs. Simpson lived in this city for a number of years moving to Lexington a few years ago. Mr. Simpson is the son of Mr. and Mrs. E. H. Simpson of this city. Mrs. Simpson was universally popular and her tragic death is a distinct shock to her host of friends in this city. Beside her husband, she is survived by one daughter, Miss Elizabeth Logan. Today's Lexington Herald gives the following account of the accident.

While driving an automobile on what is said to have been her first trip alone, Mrs. Henry Simpson, of Versailles road, wife of a Lexington grocer, was hurled from the driver's seat against a stone fence and fatally injured Wednesday afternoon at 2:15 o'clock when a Lexington bound interurban struck the car on a private crossing on the Versailles road three miles from Lexington. She died twenty minutes after the accident on the lawn of a home nearby.

According to eye witnesses, Mrs. Simpson had left her home, a mile from the city on the Versailles road, for a short ride early in the afternoon. She drove toward Versailles and chose the entrance to the Kee home in which to turn and back up to start back to Lexington. She was backing up when the interurban car, down a deeply inclined straight stretch of track, struck the rear end going at a rate of 30 miles an hour of the car, hurling the driver out and smashing the new Ford coupe into a tree.

The automobile was full on the track when struck. Mrs. Simpson was evidently unfamiliar with the operation of the car and was on the track backing toward Versailles but with the radiator of the car toward Lexington when the accident occurred.

The interurban was in charge of Motorman Joe Speaks and Conductor Smith Haggins. Motorman Speaks did not see the car, which backed slowly onto the track, until 100 feet from it. Efforts to make a quick stop were unavailing.

Mrs. Simpson's head was crushed when she was hurled through the windshield and against the stone fence which surrounds the farm in front of which the accident occurred.

The body was removed to the home. Mrs. Simpson was about 35 years old. Her husband, Henry Simpson, conducts a grocery at 400 East Main Street.

The car was completely demolished. It was purchased several days ago. An instructor from the Commercial Auto Company was out with Mrs. Simpson Wednesday morning. She went alone in the afternoon.

The body will be brought to Lancaster for interment, reaching here about 12:30 o'clock Friday, going immediately to the cemetery, where the funeral services will be conducted.

Loses Barn by Lightning.

Mr. Hogan Hallard had the misfortune to lose his large new tobacco barn last Friday morning by fire caused by lightning.

The barn had just been completed and was about one third full of fine tobacco, beside about \$500 worth of lumber stored on the inside. The loss is a heavy one as it leaves him with a large crop of tobacco still uncut and no room to store it. He carried \$2,000 insurance.

Insure with GAINES.**Overland In Pictures.**

A good crowd saw the Overland Four in pictures at the Roman's Opera House last night, showing this popular car tested up and down the Rockies, through heat and cold; mud and snow; rocks and sand. Mr. Roger Aldridge is the local agent here and his friends are very grateful for the capital picture shown. He would be pleased to show the same car in "real" action.

INJURIES PROVE FATAL**J. C. Mershon Passes Away at His Home in Bryantsville.**

Mr. J. C. Mershon, who fell from a moving train near his home at Bryantsville, on August 30th, died from his injuries last Friday night, when proved to have been of an internal nature, and all medical skill was of no avail.

The passing of this splendid citizen, falls as a calamity upon the community and as a great shock to those who were near and dear to him. He was born in Lincoln county about 57 years ago, later moving to Corbin, where by energy, perseverance and a practical business judgment, he accumulated enough of this world's goods to live in comfort and ease the remainder of his life. He had just purchased the beautiful home of Mr. J. C. Williams at Bryantsville and was preparing to move into it, when the train accident happened, that proved fatal and closed his earthly career.

He was prominent in railroad circles and held the position of master mechanic and general foreman on the Louisville and Nashville for a number of years. Just before leaving Corbin Mr. Mershon sold the Corbin electric light plant, which he had owned and operated for a number of years.

Early in life he was married to Miss Emma Kennedy, daughter of the late Grover Kennedy and sister of Mr. M. G. Kennedy, of Bryantsville. She together with one son, Mr. Will Mershon, of Lagrange, Ky., survive him, a daughter having passed into the great beyond several years ago.

Funeral services were conducted at the Presbyterian church last Sunday afternoon by Dr. E. M. Green, of Danville, assisted by Rev. H. S. Hudson. A large concourse of friends and relatives, many among them from Danville, Stanford and Corbin, attended the last sad rites of this splendid citizen and man.

Burial took place in the Lancaster cemetery, the services there being conducted by the Masons of which order he was a devout member.

MIRACLE SHRINE**Tale Called True.**

American Priest, Back From Erin, Says 30,000 Daily See Boy Healer

NEW YORK—Tales of miracles performed at Templemore, Ireland, were told recently by eleven Catholic priests who returned to this country on board the steamship Caronia.

The Rev. Father J. Dawson Byrne, of Beresford, S. D., who was born and educated in this country and ordained in Chicago, discussed his visit to Templemore September 2, 3, and 4.

"The place where all these miracles have been performed," said Father Byrne, "is in a bedroom of a small thatched cottage, where the Blessed Virgin appeared to James Welch, a poor boy 17 years old, July 2 and told him to dig a small round hole in the earthen floor of his sleeping room, which would become a well for healing the sick, the lame and the blind."

"He told me that the Holy Mother had appeared to him in visions several times during June, but he had been afraid to mention it until he was convinced that it was his duty to do so after making the well."

"When he had made the hole, about the size of a small washing basin, he said the Blessed Virgin passed her hand around the rim and the water began to flow, and it has been kept filled ever since."

"The next demonstration was August 14, where the statues in his room began to bleed. I saw blood coming from the mouth of the statue of the Holy Mother and blood from the eyes of the statue of the Savior."

"When I was at Templemore, pilgrims were arriving there at the rate of 30,000 a day from all parts of Great Britain."

"Outside the cottage there are piles of crutches left by pilgrims who have had the use of their limbs restored to them. Blind persons who have had to be led to the shrine walked away without assistance, as their sight had been restored."

The Ladies of the Christian church will have an exchange in Haselden Brothers store window, all day, Saturday, September 18th. Everything good for Sunday dinner.

SWINEBROAD STILL SELLING 'EM**Sales Cover Most of State in Last Two Weeks.**

Swinebroad, The Real Estate Man, has covered practically the entire state of Kentucky, with his sales during the past two weeks, and during that time has succeeded in putting several of her citizens out of good homes, which he generally does if they are turned over to him to sell. He has had several successful sales as advertised in our September catalogue.

On Friday, Sept. 10, he sold two farms in Lincoln county, for G. A. Carpenter, one of 55 acres to W. B. Hester at \$124.25 an acre, and 60 acres to A. T. Swope and Tom Brent at \$45.00 per acre. Saturday, Sept. 11th, was a big day in Lancaster; an all day sale, held at the Lancaster Hotel, which is one of the very best hands in Central Kentucky; there was a big crowd at the sale, more people than have been in Lancaster for some time. Among the number of sales reported secured was the James L. Anderson dwelling on Danville street to M. K. Denny for \$25,500, and the Tomlinson lot on the Public Square to Hughes Brothers for \$4000.00. Hughes Brothers propose to erect a modern, up to date building on the lot, which will be quite an improvement to the town, and they are to be congratulated on securing such a good building site and the town to be congratulated on getting this corner built up, and are indebted to Swinebroad and his assistants, W. A. Dickerson and others negotiating the sale of this lot. Some of the property did not bring an amount which the owners felt justified in taking, but we are informed by Mr. Dickerson, who had special charge of this sale that some of the property which was offered will be closed out at private sale to the holders at the sale, and taking it all in all it was a very successful day, this being the first auction sale since Mr. Dickerson has been with Swinebroad, the real estate man, we noticed his work and he worked like he had always been in the business. The next sale was on Tuesday, Sept. 7th, sale of 268.53 acres in Boyle, the farm of J. G. Spornamure and Robert Hester to K. Donegan at \$234.10, amounting to \$62,862.68. There was a large crowd present at this sale, and the personal property sold well, big burgoo furnished by the owners of the farm.

On Wednesday Sept. 8th, sold for W. C. Bailey 148 acres in Mercer county to Hampton Brothers of Madison county at \$250.00 an acre. Mr. Brown Hampton who was present and bid on the land has bought several farms and he remarked at the close of the sale that "This is the fairest sale I ever attended." This is one reason that Swinebroad has such successful sales, he never has any fake sales and bidders and purchasers at his sales always receive a fair deal.

The Kimberlin farm of 493 1/2 acres in Nelson County was sold Saturday, by Swinebroad, the Real Estate Man, to Covington Jett and Alvin Cornelson, of Madison County, at \$171.75 an acre; the sale amounted to \$86,239.12. The buyers of this farm lived over 100 miles from the place of sale; there were also buyers at this sale from Shelby county, Ky., more than 100 miles away, and also representatives there from ten or more counties, which goes to show the wide field Swinebroad covers in advertising and proves that IT PAYS TO ADVERTISE. On the preceding day, Friday, he sold the James H. Weaver farm, near Hubbs, Lincoln county, to L. P. Weaver and W. L. Donegan at \$175.00 per acre. On Tuesday, Sept. 14th, sold two farms in Mercer county, the C. H. Foster farm of 55 acres to L. B. Shouse of Boyle county at \$155.00 per acre; also sold the 67 acre farm which was sold to settle estate of George E. Wright to Coleman Wright, one of the heirs at \$197.50 an acre. The sales of Swinebroad last week amounted to over \$225,000.00.

Speaking. Congressman J. M. Robson will speak at the Court House in Lancaster, Monday, September 27th.

AMERICAN LEGION**Officers Elected For the Ensuing Year.**

The American Legion of Post Herday Sanford No. 35, met at the Police Court room in Lancaster last Thursday night and elected the following officers for the ensuing year: Wm. F. Miller, Post Commander; Collier C. Dawes, Vice Commander; Franklin McK Davidson, Vice Comdr.; Charles M. Thompson, Adjutant; Benjamin Wood, Finance Officer; Dr. J. S. Gilbert, Service Officer; Bascom C. Ford Chaplain; Alex. Doty, Serg. at Arms; Stanley Herron, Athletic Officer.

It was with regret that Mr. V. G. Kinnaird retired as the Commander of this Post. Dr. Kinnaird, owing to his uncertainty of being present at all the meetings asked that his name be withdrawn from the Post, the genial hearted Doctor said, "I will be found fighting just as hard for the Legion in the future as I have been in the past."

All the newly elected officers were "sworn" in on this night and got down to business like old veterans. Commander "Billy" Miller remarked to a Record reporter that he hoped that the local Post would have a home within a few months and that he was in hopes of seeing this one of the strongest organizations in the county.

Two sub-posts were organized at this meeting, one at Paint Lick and the other one at Bryantsville, and the other one at Danville, to take care of the soldiers in these Districts in order that they would not have to drive all the way to Lancaster to the meetings, as they will be furnished with Bulletins and Memorandums as soon as they come out from State Headquarters, and only two or three will be required to come from each one of these places to represent their "Buddies" at the Post meetings.

There is no reason why all the Ex-Servicemen throughout the county should not be members of this Post, as the boys who are working for them are all fine Christian gentlemen, and we as civilians feel perfectly safe in the hands of the American Legion when they are fighting for 100 per cent Americanism.

We are advised that they intend to pull off one of the biggest days ever held in Lancaster November 11th, and their next meeting will be the first Thursday night in October at which time Commander Miller is anxious for all service men to be present whether they belong to the Legion or not.

Go to it boys we are for you.

MAY BE SOME GOOD BARGAINS**In Master Commissioner's Sales.**

The sales by W. H. Brown, the Circuit's Court's Commissioner should be of interest to the land buying public.

The farm of about 100 acres, which will be sold Saturday afternoon at 2:30 P. M., formerly known as the Tram Conn farm on the Richmond pike, now owned by the widow and heirs of the late William Ray, is a very desirable home and will be sold for the high dollar by the Commissioner. Some of these farms to be sold may be bought at a bargain and will doubtless have the attention of those interested in the purchase of a home.

The following is a list of the property which will be sold on County Court day, Monday Sept. 27th; G. M. Treadway et al vs. Ruth Rucker; W. T. Worrell, et al vs. Virgie Worrell; Milton Ross, et al vs. Robert Laytons' Grdn, et al; Wm. Lear vs. Herod Raines, et al; John Heazley, Admr, et al vs. Arthur Heazley Grdn, et al; John F. Marsee, et al, vs. W. H. Marsee et al; W. H. Harris' admr, vs. Allie Harris; Nannie Grant et al vs. Rhoda Yates. Look these properties over and be at the Master Commissioner's sale in front of the Court House door next County Court Day, about 11 o'clock, A. M. and you may be able to buy a good bargain for a speculation or a good piece of property for permanent use.

W. C. T. U. Notes.

All of the members are urged to be present Saturday at 2:30 at the club room. It is the annual election of officers.

Boarders Wanted.

I am now prepared to take care of several boarders, with or without rooms. L. E. Herron, 11-14.

Cabin Lure

By GENEVIEVE ULMAR

(© 1920, Western Newspaper Union.)

"Once get out in the Venturia district, Dale, and you'll never go anywhere else. Once a man gets the cabin fever among those rainy, old hills, he is enchanted for life."

"Why do you call it 'cabin fever,' Merton?" inquired Alvin Dale.

"Because it applies specifically. There is everything in the section except oil. Once there was a rush on prospects in that line, but it turned out that every strike was a shallow surface well. Inside of a year there wasn't a derrick or a derrick left in the district. They did leave cabins, however. Here and there along a trail for a hundred miles in the center of the grandest hunting and fishing district in the world, every few miles you'll find a fair to indifferent cabin, but offering a shelter far superior to a flimsy tent."

"Abandoned, I suppose."

"Permanently, and you take your pick and leave yourself and no questions asked."

Little Merton was, like Dale, a young man of fortune and leisure and an authority on places and travel. Dale started the next day on his thousand-mile trip. A settlement named Eden Point was his rail connection. Then twenty miles by wagon and as much more by canoe, and he found himself late one afternoon in front of a plain board structure with three rooms.

"It's about the choice of the houses," advised his guide, "right on the stream and that's a big advantage, for nearly every day some kind of craft passes up or down stream and they will do any errands you may have at the settlement."

"That will be just the thing," commented Dale.

"Another thing," continued the guide, "back a bit from the river there are several families living, so you won't be lonesome."

Dale had bought a folding cot, an old stove, some camp stools and a fair array of pots, pans and crockery. It was a pleasing novelty and something of a delight to make amateur housekeeping arrangements. Bedroom, dining room and kitchen swept and furnished, he lit a lamp and sat down to write some letters, feeling quite at home and comfortable.

"Saw your light and wondered who my next neighbor could be," spoke a hoarse voice, and at the threshold stood a bronzed, bearded man, the typical frontiersman in dress and speech. "You look as if your needs are all nicely provided for," added the visitor as he glanced about him. "We have butter and eggs and always a friendly helping hand when you happen to need it. I'm Aaron Burt; lived here for ten years."

"With your family?" said Dale, simply to keep up the conversation.

"Only a niece, Ada Revere. She has been here a month and going to stay two more. I hope we get better acquainted."

"It will not be my fault, if we don't," said Dale. He was pleased at the thought of neighbors, more so especially as the niece might be a young lady. He found her so, and beautiful, intelligent, refined. It was the next day that he came upon her in the woods with her uncle. An introduction followed and after that almost every other day Dale spent an hour or two at the Burt cabin. He learned that Mr. Burt owned considerable land in the district and was experimenting along the line of promoting a plan to get the oil from shale. His niece was unpretentious, friendly and charming.

It was natural and inevitable that these two young souls should discover a mutual attraction. Then there transpired a series of incidents that brought about a definite climax. Mr. Burt came over to Dale's cabin one morning riding one horse and leading another.

"I need your help, Dale," he spoke quite excitedly. "Some one broke in to the house while we were passing the night with a neighbor. We suspect two fellows we noticed hanging around yesterday. They are on foot. They have taken about all Ada possessed and we must get after them."

They came upon the thieves ten miles away. The latter had seen them coming and had scurried for a belt of dense timber, leaving a suitcase they had been rifling behind them. Burt tossed over its contents.

"They haven't taken anything but a trinket or two," he reported. "We won't risk a fight following them further," and Dale, staring hard at an array of clothing fit for a princess, began to realize that Miss Ada Revere must belong to a family of some consequence.

Ada was delighted to recover her property and Dale's cooperation in securing it drew them still closer together. One day Burt met Dale, quite serious looking.

"Young man," he spoke, "I've got eyes to notice that you and Ada are headed for a deep dive into love. I don't know how that will suit her folks. They're proud and rich and pretty high up. I should have told you that before."

"It was not necessary," replied Dale with a cheery laugh. "I won't boast because I own two banks and come from one of the oldest families in my native city. I think I can qualify up to the standard of Ada's family. It is too late to discuss that, however, for I just kissed your charming niece and placed an engagement ring upon her finger."

The 1921 Haynes Touring Car at \$2935 actually impresses people as a \$5000 car

TWENTY-nine hundred and thirty-five dollars never before bought such a beautiful car, such a remarkably perfect mechanical system as the new 1921 Haynes Seven Passenger Touring Car. It is really \$1000 underpriced—compared with other cars of the same value.

Owners of these cars report to us that hardly a day passes without someone expressing surprise when told the actual cost of the car. The average person thinks it must be at least \$5000.

This is natural, for the 1921 Haynes Touring Car is one

of the finest automobiles ever made, through and through.

Its high hood, superb lines, splendid finish, deep upholstery, refined fittings and general air of luxury leave nothing to be desired.

And it is more than ninety per cent. Haynes-made—the famous Haynes engine is especially built by our own experts, and every essential feature of the car, from its first design to its final approval, is under the eyes and in the hands of the men who have made the reputation of the Haynes through

all the years since Elwood Haynes created and built America's first car.

The four factors of car-character—Beauty, Strength, Power and Comfort—are scientifically combined in the Haynes.

Our policy is to give our patrons the benefit of our own economies, and in this instance the difference between what you think the car can be bought for and its actual price is a genuine surprise, which you will appreciate all the more when you look at the car.

Come and see the new 1921 Haynes—or telephone

for a demonstration.

SUDAN GRASS IS IMPORTANT CROP

Now Being Successfully Grown
in Nearly All Parts of the
United States.

HAS SHORT GROWING SEASON

Gaining Popularity Because of Its
Ability to Produce Fair Yield of
Hay Under Conditions of
Low Rainfall.

Ten years after its introduction to the United States from Khartoum, Africa, Sudan grass was being successfully grown in nearly all parts of the United States. It does not serve well either as a "money crop" or a soil improver, hence it may never find a permanent place in regular crop rotations. It has, nevertheless, a very important place in the farmer's second line of defense as a catch crop which can be planted to give satisfactory returns when conditions have brought failure to other hay crops. This is the verdict pronounced by the United States department of agriculture in Farmer's Bulletin 1129 recently issued.

Sudan grass is replacing millet as the premier catch crop in many localities because of its ability to produce a fair yield and a high quality of hay under conditions of low rainfall; its rather short growing season, and its ability to thrive on a wide range of soil types. Large yields of Sudan grass are obtained only on good soils, but the grass fails completely only on cold, poorly drained land.

Sudan Grass Produces Heavily.

In California under irrigation Sudan grass has made yields of 9.8 tons of field-cured hay an acre, when alfalfa produced but 8.3 tons under like conditions; it ordinarily yields about the same as alfalfa under irrigation in the Southwest, but Sudan grass gives its full crop in three cuttings against the four or five required for alfalfa. It is the only grass yet found which in this part of the United States ranks as the equal of alfalfa in point of yield and quality of the hay. Its record in this respect has led to its use in "patching" old alfalfa fields when the stand of alfalfa has been destroyed. In the southern great plains where there is a low rainfall, Sudan grass grown without irrigation will yield from one to three tons of hay to the acre.

There are certain parts of the United States where the department of agriculture considers it unwise to depend on Sudan grass for hay. This is true of the strip of territory 200 miles wide along the northern boundary; the regions of high alti-

Sudan Grass Grown in Rows and Cultivated.

tudes in the western states; and also most of Florida and a narrow strip of land along the gulf coast. Low temperatures prevent success with the grass in the first two regions named, and disease is the limiting factor along the gulf coast. In a majority of the central and southern states, however, climate and soil conditions are favorable to Sudan grass.

Although Sudan grass is best adapted by nature to use as a hay crop, it is also used with great success as a sodding and pasture crop for summer pastures. Its use as a sodding material is limited by the fact that it is easily made into hay and fed as such with very little waste, and also because corn and sorghum both outyield it and are generally available throughout the region where Sudan grass is grown.

High Feeding Value.

The feeding value of Sudan grass is equal to timothy hay. In localities where soy beans or cowpeas do well these legumes may be grown in mixtures with the Sudan grass. Such a mixture produces a hay of higher feeding value than the grass alone, because of the high protein content of the legumes.

Sudan grass hybridizes freely with the sorghums. It is necessary, therefore, if pure seed is produced, to have the Sudan grass field at some distance from any sorghums, otherwise it will result in a mongrel crop the following year.

The department of agriculture's new bulletin goes very thoroughly into the details of cropping, planting, harvesting—both for hay and for seed—as well as the best methods of feeding the hay to live stock.

A French Invention.

A Frenchman has invented method of enlarging records to obtain increased or diminished sound intensity.

French Guiana.

French Guiana is the penal settlement of France. Its surface rises gradually from the unhealthy coast to the mountain border on the south. Only a small part of the country is known. Fevers, particularly yellow fever, decimate the region and have proved so fatal to French convicts that white prisoners have long been sent elsewhere. The Ile du Diable, off the coast, became famous through the imprisonment of Alfred Dreyfus.

One Good Point.

Many untold things are said of the telephone, but one of its redeeming features is that you can't lend money through it.—Boston Transcript.

Hair Dyes Not Needed.

Hair dyes are unknown among Chinese women, as their hair is uniformly black, becoming gray only in extreme old age.

Anti Kissing Law.

In Bavaria, the state railways forbid kissing either on stations, where friends, relatives and families are united, or on trains, while France issued an order two years ago forbidding kissing on trains.

WHY WE PAY.

The indictment and prosecution of profiteers and gougers in some sections of the country comes as a ray of hope to a people groaning under the burden of exorbitant prices for everything we eat, wear or use.

It is not the retailer who is feeling the weight of the law, as his prices as a rule are quite within the bounds of reason—at least in the country towns and rural districts.

The gougers who are being hit are generally middlemen or wholesalers, who have been juggling the products back and forth, with a price boost at every juggle.

Normally, the law of supply and demand regulates the price of a commodity. But it has not been so since the beginning of the war, because times have not been normal.

One of the principal reasons for existing high prices is the fact that a commodity passes through too many hands before it reaches the consumer, and most of those hands are experts at the pleasing and lucrative occupation of gouging.

If public officials had taken a firm stand as soon as the gouging commenced—if they had filled the jails when the evil was in its infancy—profiteers would never have reached the gigantic proportions which now stagger the country.

But they didn't, and because of their hesitancy we are paying the penalty today.

Even at this late day, if our public officials can be brought as a body to a realization of their duty—if they can be prodded into an energetic performance of that duty—we may some day expect the law of supply and demand to again regulate the price of the food we eat and the other necessities we require in our daily life.

We begrudge no man a dollar or a million that is made honestly, but that which is accumulated by dishonest or unfair practices should land its possessor in prison.

SEEING BOTH WAYS.

Some of us are content to go through life noting the mistakes of others, blissfully indifferent to the fact that they see us as we see them.

People think of us only as our own conduct and actions deserve that we be thought of.

If we spend our time in petty and obnoxious criticisms of others, we must expect that they at least will be able to detect the beam in our own eyes.

A few may be short sighted and unobserving, but the majority of people are wise and quick to not the idiosyncrasies of human nature.

Why is it that some people are universally admired and though they have their faults, respected through life, also do the rest of us?

It is not because those faults are hidden from the world—far from it. It is because such people have hearts endowed with more than the average of human compassion—hearts that prompt the mind to recognize the good qualities of others rather than to be continually seeking out the weaker points.

It is because they see the better side of others that the world thinks so well of them.

All people have their faults, but some, unfortunately, are only able to distinguish those which exist in the other fellow.

NOT MONEY ALONE.

It isn't big wages in the city alone that takes young men away from the farms. The unending routine of work and the absence of any form of healthy recreation and amusement have more to do with it than anything else.

One of these days farmers will see the wisdom of maintaining a community social center, where young men and women

can hold frequent gatherings and enjoy the clean forms of amusement which today are too seldom found in the country districts.

A club house in a farming district for such a purpose would not cost a fortune, but its practical value to the community would be beyond estimate.

WHAT'S DOING In Garrard Politics.

We publish a partial list of the democrats selected to act as a committee in each of the precincts for this political campaign. A complete list will be seen in our next issue. Chairman D. C. Sanders is working hard to in this county and promises to have perfect the democratic organization the best working force that has ever been behind a democratic campaign in the memory of the oldest politician. The organization of women voters will be ready for publication next week. Chairman Sanders requests all democrats to co-operate with him in this political fight and he promises a result that all good democrats will be proud of when the polls close on November 2nd.

Taylor.

Mrs. Mary Belle Taylor, aged 70 years and wife of Mr. Cyrus Taylor of this city, passed away at the Good Samaritan Hospital in Lexington last Sunday morning after a lingering illness of over three months.

On June 1st, last Mrs. Taylor suffered a slight stroke of paralysis and falling very severely injured her hip. Pneumonia soon developed and she was taken to the Good Samaritan hospital on June 10th, where she remained until her death.

Mrs. Taylor was born in Garrard county and was a daughter of the late John Will Poor, who for many years lived in the Bryantsville section of the county.

She will be greatly missed by many in this city and county and was universally liked by all. She was a devout member of the Methodist church.

Her remains were brought to her home last Sunday evening. The funeral services were conducted at the grave in the Lancaster cemetery on Monday morning at ten o'clock, by her pastor, Rev. F. D. Palmeter, with appropriate remarks.

Notice.

All housekeepers who would like to have assistance in canning, preserving, making catchups and pickles, will please call Miss Lena Bright at her home on Maple Avenue.

AUSPICIOUS OPENING Lancaster Graded And High School Opens With Large Attendance.

The opening last Monday of the Lancaster Graded and High School was one of the most auspicious in the history of the school, considering the large first day attendance and the interest shown by the citizens and patrons who lent their presence at the opening exercises, which were brief only a short program being rendered.

After singing of America, Rev. C. B. Strother read the scripture lesson, and Rev. H. S. Hudson led in prayer. Former Superintendent P. H. Hopkins, then introduced the new Superintendent, Prof. Paul Boyd who briefly outlined his school plans and made the necessary announcements for the opening of school. Chapel was then dismissed and the various promotions were made from the different rooms.

From the standpoint of first day attendance, last Monday broke all previous records, the total enrolling for that day being 401, which was 50 more than on the first day of last year. It is predicted that a goal of 500 pupils will be reached before the end of the first month.

Prof. Boyd, who seems quite at home in his new field of work here, takes to his work like a duck to water and from present prospects one of the banner years of the school lies before him and his worthy corps of assistants.

The following is the personnel of the faculty for the current term. Superintendent—Prof. Paul B. Boyd. Principal of High School Department—Miss Hettie Robinson. Assistants in this department being, Miss Margaret Sexton, who was with the school last year and Miss Mary Anna Beard, of Shelbyville, who has just graduated from Georgetown College with a B. S. degree.

The teachers elected for the grades are as follows:
Primer and First Grade—Miss Ada Rich.

Second Grade—Miss Anderson.

Second and Third Grades—Miss Mildred Beazley.

Third Grade—Miss Estridge.

Fourth Grade—Miss Nellie Wand, of Woodbury, Ky.

Fifth Grade—Miss Myrtle Ruble.

Sixth Grade—Miss Minnie Burchett.

Seventh Grade—Mrs. Theo. Curry.

Eighth Grade—Miss Eliza Smith.

Mrs. May Hughes Noland will have the Music Department again.

HASELDEN BROTHERS

To Sell their Hardware Business.

In this issue of the Record we are carrying a large advertisement of Haselden Brothers announcing their decision to sell their hardware and implement business in this city.

This is one of the best established concerns in Central Kentucky and carries with it a very large patronage from this and adjoining counties. They are offering it for sale privately and if not sold before that time will sell it at public auction next county court day in Lancaster, September 27th.

Garrard Farms Sell.

The sale of the James B. Leavell farm in lower Garrard, conducted by Messrs. Thomas and Hamilton sold very satisfactory last Saturday morning, one hundred acres of the unimproved land selling to Mrs. Florence Ballard and sons, for \$250.00 an acre. The tenant house with 20 acres of land was purchased by J. C. Williams of this city, for \$344.00 an acre.

The balance of the farm with the home and improvements was unimproved at a price of \$245.00 an acre. A good crowd attended. Messrs. Thomas and Hamilton also sold this week that fine farm of Harry McWhorter's located on the Richmond pike near Paint Lick containing 170 acres, to Messrs. J. A. Scott and son. The price paid being \$235.00 an acre.

Another sale by this firm was the Higginbotham farm near Marcellus to Floyd Humphrey. There are 250 acres in this splendid farm and the price was a long one, but would not be announced.

Look Out for Rheumatism As Winter Approaches

So many cases of rheumatism come from a tiny disease germ that infests the blood, that physicians are beginning to realize that this source of the disease is becoming quite prevalent. Of course a disease that has its source in the blood cannot be reached by local remedies applied to the surface. One remedy that has given splendid results in the treatment of Rheumatism is S.S.S., the fine old

blood remedy that has been sold by druggists for more than fifty years. S.S.S. acts by driving out of the blood the disease germ that causes Rheumatism, thus affording real relief.

Begin taking S.S.S. today and if you will write a complete history of your case, our medical director will give you expert advice, without charge. Address Chief Medical Adviser, 151 Swift Laboratory, Atlanta, Ga.

CONFIRMS DEATH OF CZAR FAMILY

Butchery of Russian Royal Household Considered True Beyond Doubt.

DETAILS TOLD BY WITNESSES

Emperor Nicholas, Empress, Son, Four Daughters, Doctor Botkin and Three Servants Slain in Basement of Prison.

London, Aug. 31.—All possible doubts that former Emperor Nicholas of Russia and his family were assassinated in the basement of their prison house at Ekaterinburg on the night of July 16, 1918, seems to be dispelled by the accounts of two independent investigators published here. One is printed by the Times and was written by its former Petrograd correspondent, Robert Wilton. The other appears in the magazine Nineteenth Century and After, and is from the pen of Capt. Francis McCullagh, British army, who was a widely known newspaper correspondent before the war.

Both spent several weeks at Ekaterinburg, and talked with natives and soldiers who witnessed the affair through the windows of the dilapidated house. Both writers agree on the important details of the story.

Eleven Massacre Victims.
The victims of the massacre, they say, numbered 11, being the former emperor, his wife, son and four daughters. Doctor Botkin and three servants. The assassination was arranged by Yurovski, the jailer in charge of the deposed royal family, and was carried out by 12 soldiers.

The Times account says these men were Latvians, but Captain McCullagh declares they were Magyars placed on duty instead of a Russian guard because the Bolsheviks feared a Russian could not be trusted for the work.

Captain McCullagh's story says all the deposed party, except Nicholas, were on their knees, crossing themselves, as Yurovski shouted the order for the execution of "Nicholas Romanoff the bloody, and all his family."

Czar Tries to Shield Wife.
The former czar then stepped quickly in front of his wife and children, saying something which could not be heard, and was shot by Yurovski. Then the remainder of the party was shot with revolvers and later the soldiers bayoneted the bodies.

Yurovski, who had been president of the extraordinary commission at Ekaterinburg, hastened to Moscow to report the murders to Lenin.

He was promoted to be commissioner of life insurance in the province of Ekaterinburg, and occupies the most handsome house in the town. On the square overlooked by Emperor Nicholas' last prison the Bolshevik local government has placed a large sign, bearing the words: "Square of National Vengeance."

BATHERS BOMBARD CENSOR

New Jersey Preacher Is Showered With Tomatoes at Beach, Saved by Constable.

Trenton, N. J., Aug. 31.—The Rev. Frederick Kopfmann, pastor of the Methodist church at Tinsville, N. J., who has been endeavoring to "drive the devil from the hearts of the immoral bathers" at Washington's "crossing," was greeted with a shower of over-ripe tomatoes when he appeared at the resort to lecture the bathers on their attire. The pastor's automobile was wrecked and he was pinched and manacled and an attempt was made to throw him in the Delaware river. He finally escaped while a constable held the crowd back with a drawn revolver.

WILSON O. K.'S MINE BOOST

President Approves Majority Report of Coal Commission Increasing Wage 20 Per Cent.

Washington, Aug. 31.—President Wilson approved the majority report of the anthracite coal commission increasing the wages of contract miners 20 per cent over present rates. Miners employed as company men are given an increase of 17 per cent and the same amount is given "consideration miners" and miners' laborers and monthly men. The findings, the report said, would fix a minimum rate of 52½ cents per hour for the lower paid men in the anthracite industry.

Magyar Premier Poisoned

Budapest, Hungary, Aug. 31.—Premier Teleky is suffering from blood poisoning. The minister of commerce, M. Rubinek, will be setting premier until Count Teleky's recovery. There have been various rumors that the premier is the victim of poisoned needles and considerable mystery has developed in the case.

Tornado in Missouri County

Kansas City, Mo., Aug. 31.—A wind storm of such severity as to amount to a tornado swept Bates county, Mo., leveling standing crops, trees and farm buildings. In Hume, Mo., where the severity of the storm was greatest a garage was demolished and nearby buildings damaged. Eight inches of rain fell at Hume.

John Bright's Choice 45 Acre Farm

(Former Home of William Beck)--Subdivided

AT AUCTION

ON THE PREMISES

Friday, Sept. 24th,

AT 10 A. M. RAIN OR SHINE.

Located about two miles from Stanford on the Stanford and Hustonville Pike in the Stanford Graded School District.

Until recently the home of William Beck, who owned the same for over forty years. It is conceded that Mr. Beck is one of the very best farmers Lincoln County ever had. All of this land lies exceedingly well, the very best of care taken of it, in the highest state of cultivation, a money maker and dividend producer. One look at the growing crop of corn, tobacco, clover and timothy meadows now on the farm will convince you of the fertility of the soil. In fine neighborhood. One of the most desirable little farms in Lincoln county. You know they are scarce and hard to find. 15 acres in timothy and clover meadow, 20 acres in corn, 4 acres in tobacco and 5 acres in yard, garden and orchard.

Handsome two story residence of eight rooms, 2 halls, front veranda, side porch and screened lattice porch, barn 60x60 and 60 ft. shed, upper story holds five acres of tobacco, 100 ton silo, crib in barn, granary, and all sorts of other outbuildings. Fine fruit. Splendid water, two ponds, cistern etc. Beautiful shade, nice approach to this elegant home, pretty view and healthy location.

This is one of the prettiest homes and most desirable location around Stanford. It will be subdivided into four tracts.

It is the right size, located right, in the right neighborhood, splendidly improved, close to school and churches in fact it is all you could wish for for an ideal home. Mr. Bright and family have decided to go South and make their future home there. They have instructed us to SELL for the HIGH DOLLAR. Look it over carefully and be there on sale day FRIDAY, Sept. 24th at 10 A. M. and you are sure to bid on this dandy home and farm. Terms liberal and made known on day of sale.

PUBLIC SALE

OF

"The Old Stephen Ison Home Place"

ON

THURSDAY, SEPT. 30th, 1920

AT TEN O'CLOCK, A. M.

I will sell at public auction the old Stephen Ison home place, located one and a half miles North of Buena Vista and on the Buena Vista and High Bridge road and within one quarter of a mile of the Buena Vista Graded School. This farm contains about 70 acres of land, with improvements consisting of two houses, stock barn, good orchard, good outside fences and two never-failing springs.

The dwelling is a two story brick, with seven large comfortable rooms. On this farm is also a tenant house, new, consisting of two rooms and brand new.

About twenty-five acres of this farm is now in grass, the remainder in corn, which was broken out of blue grass sod, that hadn't been plowed for fifteen years.

The location of this farm is ideal, being in one of the best neighborhoods in the county and close to one of its best Graded Schools.

The land is very productive and capable of bringing the choicest grades of tobacco.

The object in selling this land, is to wind up the estate of the late Stephen Ison.

PERSONAL PROPERTY.

At the same time I will sell some of my personal property consisting of the following:

One half interest in 40 acres of corn; two Riding Cultivators; One Turning Plow; one good Farm Wagon; three good work Horses; Harness, Plow Gear etc.

TERMS LIBERAL AND MADE KNOWN ON DAY OF SALE.

R. P. ISON,

Col. A. T. Scott, Auctioneer.

EXECUTOR OF STEPHEN ISON.

"ON BROADWAY"

One of the Best 128 ACRE FARM One of the Best

at Public Auction

To settle the estate of the late M. S. Thompson, the fine farm of 128 acres, will be subdivided and sold. Remember the date.

Wednesday, September 29th

AT 10:30 O'CLOCK, A. M. on the premises.

The improvements on this farm are comparatively new, having been built by Elder F. M. Tinder and occupied by him as a home. This is one of the very best, most fertile and conveniently located farms in Central Kentucky. It is on the Lexington pike, known as the Boulevard of Garrard County, about 2 miles from Lancaster, in the Lancaster Graded School District.

SUBDIVISIONS—The farm will be offered in several subdivisions. One of the subdivisions will consist of the beautiful residence, tobacco barn and all modern outbuildings, and about 70 acres of land, which will make an ideal home. The remainder of the farm will be offered in two parcels. The farm will then be offered as a whole.

PURPOSE OF SALE

We are offering this farm for sale with the consent and upon the direction of the heirs and widow of the late M. S. Thompson, and is offered for sale for the purpose of settling his estate. It is a rare opportunity for obtaining a desirable home or homes in a good neighborhood, with all modern conveniences. We invite the public to look over this proposition before the day of sale.

TERMS WILL BE EASY AND MADE KNOWN ON THAT DAY.

There was a sad gloom cast over this community last Thursday when news came that Miss Lura Parsons had met death while crossing Tule Mountain. She had been brutally murdered, her brains being beaten out. Miss Lura was the daughter of Mr. W. S. Parsons. She had been in Harlan county since June, being engaged in teaching Domestic Science. She leaves a father, step-mother and several brothers and sisters besides a host of relatives and friends to mourn her loss. She always had a smile for everyone she came in contact with. The entire community extends sympathy to the heartbroken family in their sad hour of bereavement.

LEAF PRICE DROPS

In North Carolina.

LEXINGTON, KY.—Prices on the North Carolina tobacco market regarded as an augury of the Burley market, is 60 per cent under last season, according to John W. Newman, temporary chairman of the Burley Tobacco Growers Association, who returned from an investigation trip.

Farmers at Wilson, the great tobacco center, withdrew their crops and are planning to form an association similar to the Burley Association, Mr. Newman said.

The Burley association will have a representative at the Government hearing on tobacco prices in Mt. Sterling and Maysville, he announced. It is freely charged in North Carolina that tobacco manufacturers at a meeting in Atlantic City in June set the prices for this year's crop, Mr. Newman said.

Mr. Newman, after opening headquarters here Monday, will make a number of speeches in the Burley district.

The old practice of going about with a chip on one's shoulder has about died out. Too much danger of profiteers getting the chips.

BOOZE TORPEDOES Fired Over Lakes.

Dry Official States That New Ruse Is Used By Bootleggers To Get Liquor Into U. S. From Canada.

WASHINGTON—Whisky-filled torpedoes, fired across the Great Lakes from Canada, are the latest ruses adopted by bootleggers to get supplies of liquor into the forbidden territory of the United States. Several torpedoes filled with liquor, have been captured by prohibition enforcement inspectors along the shores of the lake.

Major A. V. Dalrymple, inspector for Illinois, Indiana, Wisconsin and Michigan has placed the details of the scheme before Prohibition Commissioner Kramer. He asked for twenty-five more agents for the Chicago district in order to make more effective the blockade on liquor shipments.

"I intercepted one of the torpedoes myself," Major Dalrymple said, "and therefore I know what I am talking about. The torpedo leaves the Canadian shore at a moderate speed and travels about three feet under water. When it is near the Michigan shore it is picked up by men in a small boat, who are in the pay of the smugglers. Agents under my direction captured one of these boats while the crew was engaged in taking the torpedo out of the water.

"The Great Lakes are filled with all kinds of launches engaged in smuggling liquor from Canada, but we are getting the upper hand. We seized more than \$2,500,000 worth of liquor in the district during the past months. In two weeks we seized 22,000 cases. We could use many more men and that is the reason for my visit to Washington at this time. Chicago has only twenty-one agents and easily could use fifty.

Commissioner Kramer told Major Dalrymple that the money appropriated for the enforcement of prohibition did not permit him to appoint any more agents at this time. He said he believed more men could be used in the Chicago district to great advantage, but could not supply any more now.

The Commissioner said that enforcement of the prohibition law throughout the country is going along "as well as could be expected."

BURLEY WAR

Looms In North Carolina.

5,000 Growers Balk At Prices and Begin To Organize.

All tobacco warehouses in Greenville, N. C., the State's tobacco market, were shut down last week, according to a telegram received by the Burley Tobacco Growers Association of Kentucky, it was announced by E. M. Mansfield, secretary. The market opened last week in Greenville according to Mr. Mansfield's information, and a top price of twenty cents was offered as against fifty cents last year.

Sales were stopped and 5,000 growers adjourned to the courthouse yard and decided to form an organization similar to the Burley Association, Mr. Mansfield stated. They wired for the constitution and by-laws of the Kentucky Association.

Mr. Mansfield and John W. Newman returned recently after holding meetings of tobacco growers in cities of this State which were attended by large crowds, Mr. Mansfield said.

THE KENTUCKY FUTURITY (\$14,000) will be raced at Lexington, Tuesday, October 5. The best field of the year, probably of the decade, will start—Daystar, Natalie the Great, Emma Harvester, Lucile Harvester, Belle MacKensie, Voltage, Signal Peter and other winners.

THEY CHUCKLE Over Enthusiastic Indorsement By Kentucky Women.

A Washington report received in Lexington says that Democratic politicians at the national capital are chuckling over enthusiastic indorsements of President Wilson's suffrage record by two women who are very eminent in Republican party councils—Mrs. Harriet Taylor Epton of Ohio and Mrs. Christine Bradley South of Kentucky. The politicians are saying that in view of the enthusiastic indorsements given by these two distinguished ladies, it will be difficult for Republican leaders of the male species to make it appear that the Democratic administration deserves no credit for putting across "votes for women."

There has been presented to President Wilson during the last few days a morocco-bound volume which he prizes very highly. It contains indorsements by prominent women of his record as a promoter of equal suffrage.

The indorsement signed by Mrs. South is by no means a milk-and-water affair.

"Today," it says, Woodrow Wilson stands forth before the nations of the world as the commanding force for justice and a world democracy. He goes now to perfect that which has been baptized with the fire of battles and sealed with a covenant of blood—a world-wide democracy, a democracy in truth of all the people."

Christian Church Notes.

The "Go-Away-to-College" services last Sunday proved quite interesting. The young men who spoke, Mr. Elsiea Currier and Mr. Will Rice Amon, and the young lady who sang, Miss Mariette Lear, did exceptionally well. Their church was proud of them. A large crowd was present and all enjoyed the services very much. Prof. Hopkins who is in town this week, liked the idea of the special services for those going to college and said that in his work in the state he was going to urge all churches to observe some such day every fall.

The theme for the morning sermon next Sunday will be "Wanted: A Venturesome, Reckless Faith." It will be rather a challenge to the congregation in view of the work that ought to be accomplished this fall and winter. In the evening the Young People will meet in their Sunday evening service and then adjournment will be had to the Methodist Church to join in a union welcome service to Rev. Price Smith, the new Methodist minister.

The annual State Convention of the Christian Church will convene at the First Christian Church in Louisville next Monday evening, Sept. 20, and continue for three days. Some speakers of nation-wide reputation will appear on the program in addition to many of the prominent men and women of Kentucky. Special rates will be granted to all members of the Christian church who secure an identification certificate from their ministers. It is hoped that several of the Lancaster and Garrard County people will attend. Mr. and Mrs. E. B. Boardland will represent the local congregation.

The Transylvania

As usual, the best all-age race of the year will be The Transylvania (\$5,000) at Lexington, Thursday, October 7. The field is most evenly balanced and amongst those eligible to start are Peter Manning 2:02 1/2, Don de Lopez 2:04 1/2, Charley Rex 2:04 1/2, Inn Jay 2:04 1/2, Dr. Nick 2:04 1/2, Baron Cognate 2:04 1/2, Peter June 2:04 1/2, Peter Coley 2:04 1/2, Nedda 2:05 1/2, Arion McKinney 2:05 1/2 and Peter L. 2:06 1/2, that forced Peter Manning to trot in 2:03 1/2. Just think of eight trotters with records better than 2:05 being eligible to start in the same race; and remember that all but one have won races this year. Such a field was never before heard of.

The Cumberland, the world's big battle amongst the great pacers, will be decided at LEXINGTON Wednesday, October 6. Of those eligible to start fourteen are winners this season. Amongst them are those wonderful stake mares Margaret Dillon, "the pride of New England," Princess Mary, the wonder from Canada, and the consistent Juno, that will be backed by the men from Ohio and Pennsylvania. These mares have not met this year and a big crowd is expected to see the race.

Little children see the faults of others as they are, but often we adults see them as we would like them to be.

MATERNITY

To Be Forced By The French Nation To Repopulate the Republic.

Obligatory maternal service is proposed in France by a noted Parisian physician as a solution for the problem of repopulating France. The proposal provides that "all French women between the ages of 18 and 40 are liable to maternal service, the same as men are liable to military service."

Women failing to become mothers would be required to contribute to the upkeep of women with children.

"The plan would work practically," says its author. "Women between the ages stated, except indigent women enrolled in charitable institutions, would be required to pay annually a certain fund for aid to obligatory matrimony, to which the Government would also subscribe."

"After child birth the mothers

would apply and receive a monthly allowance for the child's rearing, to be continued for several years according to the condition of the family."

How A Big Wheat Crop Was Crowned.

(By James Speed)

Fine fields of wheat have been few and far between this season, so when I learned that Mr. A. V. Hardin, of Oldham County, Ky., had thirty acres which were a joy to the eye, I grabbed my camera and went out to inspect the field.

When I saw the field, about the middle of July, the wheat was in the shock. The bundles were long, of fine color and heavy with well-filled heads. As we walked over the field inspecting the wheat, Mr. Hardin answered questions, offered suggestions and chatted as only an enthusiastic farmer can chat about his soil and the crops he grows on it. He informed me that a seed house had field of wheat and that the house had agreed to take the grain as soon as it was threshed at \$2.90 per bushel, sent a representative out to see this. As I wished to have the yield per acre and other data concerning the crop for this little story, I got Mr. Hardin to promise me a full statement immediately after threshing.

On July 28th, I received the following information:

"The field of wheat which you visited earlier in the month contains thirty acres and threshed 360 bushels of grain, or an average of 32 bushels per acre. This is a very heavy yield when you consider the fact that 15 acres of the 30 grew a crop of corn last season. The remaining 15 acres was in potatoes. The 15 acres which grew a crop of potatoes in 1919, had 1,000 pounds of fertilizer put in when the potatoes were planted. Another application of 250 pounds of the same fertilizer went in with the wheat as it was drilled. The 15 acres in corn received 600 pounds of this fertilizer at planting time in 1919 and the wheat received 250 pounds of the same.

"This fertilizer contains 2 per cent ammonia, 10 per cent available phosphoric acid and 10 per cent soluble phosphoric acid. No potash is used, because the farmers about here have learned that our soil contains all the potash we need, and there is no reason to squander good money on high-priced potash as we used to years ago. In those days we believed that we couldn't grow potatoes successfully without some potash in our fertilizer.

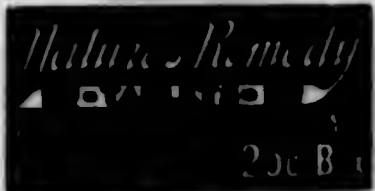

"Besides the use of this fertilizer to help me produce a bumper crop of wheat, I have used care in the rotation of crops and special care in the preparations of the soil. Before this field went into wheat in the fall of 1919, it had been in orchard grass for three years. The year before that the field was in clover, which was hogged down with 100 hogs. I allowed this clover to remain on the ground, as I am a believer in the up-building of my land.

"When this land was prepared for the corn and potatoes grown in 1919, I broke it 8 inches deep. It was later disked and dragged until the soil was a perfect seedbed and there were no clods at all in it. I have always put a great deal of emphasis on the thorough preparation of soil before the planting of crops. In fact, I think the preparation of the soil before a crop is planted means half of the cultivation. Last fall when this land was prepared for wheat it was double disked and harrowed. The wheat drill was followed by a double cultipacker to firm the soil thoroughly."

From the above statement it can be seen quite plainly that Mr. Hardin does not pin his faith in any one agency in the production of big crops. He does not believe absolutely in crop rotation as the only thing needed to get big yields. He does not feel that a fine fertilizer, which is built to fill the needs of his soil, will do everything desired in crop production. Neither does he feel that the thorough preparation of his soil is all that is essential. He believes and practices his belief in the use of all three of these factors in securing heavy production. He rotates crops carefully; he feeds livestock on his clover; he plows his land deep; he pulverizes and packs his soil; and he adds some extra available plant food.

Electric Light and Power For the Farm

Install the Celebrated

Silent ALAMO

Electric Light and Power Plant

Selecting an electric light and power plant is a serious proposition. You should know how to do it wisely. You know, for instance, that the engine is the most vital part of any plant and that severe vibration which racks the engine to pieces is a menace always to be avoided.

No Vibration—No Noise

The Silent Alamo has a noiseless sleeve valve motor. It is the most efficient and quietest running type of motor ever built. In addition, there is no dangerous vibration in the Silent Alamo. Thus the efficiency of the motor is maintained, and steady, reliable service assured.

See a demonstration of this remarkable plant now. Learn for yourself why it is preferred everywhere. If you cannot come in today, phone or write for a representative.

Democratic National Convention Rule.
The two-thirds rule was established by the Democratic national convention in Baltimore in 1832 that nominated Andrew Jackson for a second term. His running mate was Martin Van Buren of New York. The rule has been famous and inflexible ever since, though efforts have been made to destroy it. Republicans operate under a majority rule. In the Baltimore convention Jackson was nominated on the fifth ballot. His running mate four years before had been John C. Calhoun of South Carolina.

Fossils.
Though historical geology and the study of ancient life depend chiefly on fossils, the term has been very vaguely and loosely applied. As a precise definition, a writer in Science proposes: "A fossil is an object which indicates former existence of an organism which has been buried and preserved by geological causes, previous to historic time." The mushroom preserved in the arctic ice is a fossil, a leaf buried in the gutter is not; and a truly petrified organism may not be a fossil.

TERMS.
The sale will be made on a credit of six and twelve months and the purchaser will be required to execute bonds with approved security for the purchase price, due in six and twelve months respectively, and bearing six per cent interest from date until paid, having the force and effect of a judgment upon which execution may issue, payable to W. H. Brown, Master Commissioner of the Garrard Circuit Court, and a lien will be reserved upon the property sold until the purchase money is paid.

W. H. BROWN, M. C. G. C. C.
J. E. Robinson, Attorney for Plffs.

TO THE PUBLIC:
The farm to be sold by W. H. Brown, Master Commissioner herein, is one of the most desirable farms in Garrard County. The land is very fertile and productive, in a high state of cultivation, only 19 acres being in grass; well fenced, well improved and lies in a good neighborhood, on the turnpike, and is an opportunity for some one to get a desirable home.

Waking Up

By ALDEN CHAPMAN
of The Western Newspaper Union

Greg Morton had been for two years a clerk in the store of Seth Gray. He had saved several hundred dollars and both his employer and his daughter Ruth, who helped in the store, liked him and admired his thrifty ways. Ruth had been almost unconsciously an important element in forming the character of the young man, but store, thrift and humble contentment went all to the winds one day, when a letter arrived informing Morton that he had fallen heir to a small fortune. He resigned his position in the store by telephone, half wild with the immediate possession of several thousand dollars representing accumulations on investments, the principal of which was to become his further on. Then a few days later he appeared at the store, resplendent as to attire and jewelry adornment.

"I've been so busy getting used to being rich," he declared, "that I couldn't get around before, Mr. Gray. If you need any money, I've got a thousand or two you can have to expand your business."

"You're a good-hearted fellow, Greg," spoke the storekeeper, "but slow and sure is my motto, and I never borrow. Ruth is upstairs in the living room."

"I think I'll speak a word or two to her, if you don't object."

"I won't, and neither will Ruth. We miss you too much for that."

Morton sought out Ruth. As his eyes fell upon her gently parted form and expressive face a vague sense of abandoning good old friends assailed him, but the emotion was only temporary. Where and gutter had already fascinated him, and he was eager to get back to comrades who were indulgent helping him to spend his newly acquired wealth. She greeted him in a friendly, familiar way, as was her custom with him, but there was a certain shyness, he quickly noticed, which he attributed to a realization on her part if changed.

"I went shopping yesterday, Ruth," he said brightly, "to get my cousin a sundress, and I've bought you one, too," and he extended a little velvet case exposing a pretty bangle with half a dozen diamonds in it.

"I can't accept such an expensive present from you, Greg," spoke Ruth in a subdued tone, "but give me that rosebud in your buttonhole."

If Greg followed an impulse, he would have gathered her into his arms and told her what he thought of her. Already, however, the wiles of a new social influence had enveloped him. The like and pleasure seeking had claimed him as their own, particularly for his money. There was a group of newly made comrades who hung about him daily. There was a Miss Vera Burgoyne to whom he had been introduced, his senior by a few years, but artificially concealing the fact. She had set her cap to capture a young man hardly her equal socially, but with promising prospects. At heart a coquette, she had dazzled Morton quite and his male friends had made him believe that a match with Miss Burgoyne would put him up in the world materially. They feasted on his generous bounty and flattered and caressed him. He was in for jollity, and when one day he appeared on the street with a hat controlled by a tiny wire, and shot it up from his head in greeting acquaintances, his chronic nose him "so original." When again Morton drew a mock revolver from his pocket, snapped it and landed a cigar between his teeth, it was designated "the classiest bit of the season." He was courted like a king, but one day—

Morton never forgot it. He had discovered that he had used up his entire cash, even overdrawing at bank. On top of this came word that the concern in which his capital was invested had failed and his entire principal was swept away.

Late nights, excitement, his loss brought on a natural reaction.

Deserted by his friends, in debt and harassed with cow troubles, he fell ill and lay in fever and delirium for over a week.

"Queer," was his first word, faintly spoken, as he opened his eyes to natural coherency.

"Ah, better? That's good," spoke the bluff, hearty tones of Seth Gray. "We thought you would be better cared for here than at the hotel. One good thing, we haven't been pestered with those cow friends of yours. Miss Burgoyne sent a servant to inquire after you, once, only."

"That's more than I expected," said Morton, "for she dropped me in a flash when she heard of my loss. Not that I am sorry. False, selfish humanity. And you took me in. Well, I'll be able to get about in a day or two and relieve you of my charge. I suppose you feel a bit hard on me leaving you the way I did—"

"Oh, yes?" observed Mr. Gray satirically, "so much so that Ruth and I quarreled over which should sit up nights and care for you. So much so, that I am going to offer to take you into partnership, if you're over your evil dream, and have waked up to the practical issues of life."

Greg Morton buried his head in the pillow to hide his tears. He sighed. Ruth Gray—how he blessed her. Artless, loving Ruth—how he realized her true worth at last, and when he told her so, knew that he had won a treasure among womankind.

WALNUT MEADOW FARM

A GOOD BLUE GRASS FARM

AT AUCTION

Wednesday, Sept 22,

AT TEN O'CLOCK, A. M.

On the above date we will offer for sale to the highest bidder, this excellent stock farm belonging to Allen Brothers, situated on the Walnut Meadow Creek, a branch of Paint Lick Creek (these two creeks are noted for the fertility of the soil in bottom lands) only one-half mile from the Berea and Paint Lick turnpike, about 4 miles from Berea and about 4 1/2 miles from Paint Lick, Ky, in a good neighborhood, among good people who know how to be neighborly, good schools and churches near at hand.

A new road just completed running from the pike to the farm easily traversed by automobiles.

This farm contains about 200 acres, 40 acres of as fine bottom land as a bird ever flew over, the remaining 160 acres of gently rolling up-land susceptible to profitable cultivation and now in blue grass and clover. There is never any scarcity of stock water on this farm, good springs, wells and the creek furnishing ample supply.

In conducting a sale we subdivide the land to suit the purchaser, and it is our desire to know prospective buyers. We will be on this land surveying Friday and Saturday the 10th and 11th and will be glad to have parties interested to meet us on the farm at this time. We will subdivide this farm into tracts ranging from 10 acres to 100 acres.

The improvements consist of good 6 room residence, good 3 room tenant house, a good tobacco barn to house 10 acres of tobacco.

New Wire stock fence will be found over most of the farm.

PERSONAL PROPERTY SALE.

At the same time and place we will sell the personal property of Allen Brothers, consisting of 8 good sheep, two work horses, aged 8 and 9 years, one good mare 4 years old, 6 good milk cows, one Holstein Bull (a good individual subject to Registration), one Duroc Boar (subject to registration), one Milwaukee Binder, One Peoria Jr., Combined Wheat Drill, one two horse corn drill, one Black Hawk manure spreader, one tobacco setter, one mowing machine, one Osborne Hay Rake, two Disc Harrows, three turning plows, three double foot plows, one riding cultivator, one walking cultivator and one roller, other articles not mentioned.

AND OH BOY JUST TO PUT JOY IN LIFE—Dinner will be served on the grounds, with only a reasonable charge to cover necessary cost to produce.

To the man with small capital this sale is going to offer excellent opportunity. Good land, in small tracts, Good improvements, good and easy terms to be announced at sale. Land just ready to make money, barns just ready to house tobacco.

Come to the sale, nothing to lose, you can learn and make money for a few hours work with us.

WILSON UPHOLDS MAJORITY REPORT

PAY INCREASE TO ANTHRACITE
MINE WORKERS TO TOTAL
\$85,000,000

President Informs Miners That Threats
of Minority Will Be Accepted As a
Challenge By the Public—Workers
Warned to Accept Decision.

Washington.—President Wilson ap-
proved the majority report of the An-
thracite Coal Commission, awarding to
anthracite miners wage increases ag-
gregating \$85,000,000, and notified the
miners that he expected them to ac-
cept the award and carry it into effect
at once.

Replying to threats from the miners
that they would stop work unless the
minority report of the commission, rec-
ommending a higher award than that
provided in the majority, were accept-
ed, the President stated definitely that
the majority would not be set aside.

The majority report of the commis-
sion, signed by W. A. Thompson, pres-
ident of the Ohio State University,
representative of the public, and chair-
man, and by W. L. Connell of Scrant-
on, Penn., representing the operators,
granted wage increases of 20 and 17
per cent above the present wage scale.
The 20 per cent wage increase was
awarded to contract miners, and the
advance of 17 per cent was recom-
mended for company miners, monthly
men, miners' laborers and considera-
tion miners.

Neal J. Perry, of McAlester, Penn., re-
presenting the miners, whose minority
report the workers, in district meet-
ings, have endorsed, recommended a
minimum wage of \$5 a day for adult
day laborers and an increase of 21 per
cent for contract workers.

In refusing the request of the miners
for acceptance of a telegram sent
through their local representatives, the
President called attention to a resolu-
tion adopted by the miners in conven-
tion agreeing to accept the findings of
such a commission as he appointed.

"By all the laws of honor upon
which civilization rests," the Presi-
dent, in his telegram to the miners
added, "that pledge should be fulfilled."

The President further told the miners
that if their communication was in-
tended as a threat they could rest as-
sured that the challenge would be ac-
cepted and that the people of the coun-
try would find a substitute fuel to use
them over "until the real sentiment of
the anthracite mine workers can find
expression and they are ready to abide
by the obligations they have entered
into."

The wage increases recommended by
the majority will amount to an annual
increase in pay for the miners of \$85-
000,000 and in the payment of \$18,000,
000 back pay, accumulated since last
April 1.

"Bookies" May Lose Winnings.

Philadelphia.—"Bookies" who are
said to have won large sums from
Charles I. Toomey, an assistant sec-
retary of the Fidelity Trust Company,
will be forced to disgorge their win-
nings if a way can be found to do this
legally. Toomey was arrested on a
charge of embezzlement. The exact
amount of Toomey's alleged pecu-
lations has not been disclosed by the
trust company. In the warrant on
which he was arrested this total was
set at "upward of \$200,000," but at the
hearing counsel for the company said
he had reason to believe from later
investigations that the amount would
prove to be much smaller than that
named. The arrest brings to light ac-
tivities of big gamblers in Philadel-
phia, and may lead to widespread
prosecutions.

Passenger Train Derailed.

Poplar Bluff, Mo.—Missouri Pacific
Sunshine Special from Texas went in-
to a ditch 20 miles north of Poplar
Bluff. The engine, combination bag-
gage and smoking car, chair car and
dining car were derailed. Engineer J.
H. Egan, Fireman E. W. Vallmer and
Road Foreman of Engines Christoffel
were injured probably fatally.

Distillery Found In Kitchen.

Winchester, Ky.—William B. Day,
son of the late John B. Day, prominent
lumber dealer of the Kentucky monu-
ments, was arrested by Federal revenue
officers, charged with having operated a
moonshine still. A complete outfit,
the officers allege, was found in Day's
kitchen, screened so that it was con-
cealed easily.

Attacks Repulsed By Troops.

Williamson, W. Va.—United States
troops, armed with machine guns, re-
pulsed an attack by a party of un-
identified men on properties of the
Thacker Coal and Coke Company at
Thacker, according to reports received
from that point.

Fall To Sell Vessels.

Washington.—The Shipping Board
failed for the second time to find any
bidders for ships of its wooden mer-
chant fleet. A group of 24 of the wood-
en, war-built craft, aggregating 100,
000 dead weight tons, were advertised
recently, bids to be opened. There
were no bids to be opened when the
hour arrived. The same result fol-
lowed advertisement of 22 ships some
time ago. The policy of the board has
not been disclosed, but it is thought a
minimum price for the ships may be
fixed to encourage offers.

Why Itch and Burn With Skin Diseases?

There is a Way to Get Rid of
the Tortures Suffering.

Terrifying skin irritations, eczema,
netter, boils, pimples, etc. have
their origin in a disordered con-
dition of the blood. They come
from a colony of tiny germs which
get into the blood and multiply
by the million.

Lotions, salves, ointments or
similar treatment cannot possibly
reach the source of the trouble,
which is the blood.

When any of these symptoms
appear you should take prompt
steps to rid the blood of the germs
which cause them. And the one
remedy which has no equal as a
blood cleanser is S. S. S., which is
sold by druggists everywhere.

Get Well! Your Blood and Nerves Need Iron

The most powerful and beneficial tonic in all medicine for the blood and nerves is iron. High medical authorities agree on this. But it is a mistake to take any ordinary form of iron and expect to get satisfactory results. Most of the common forms of iron are what is known in science as "inert" because when taken into the human system they exert no action whatever. Perhaps this is why you have been disappointed when you have taken certain pills or tablets or tonics said to contain iron.

The new way to restore iron to the blood—the surest and most dependable of all methods—is through the use of Acid Iron Mineral. This is a natural form of soluble iron, found

in Nature itself, combined with other highly beneficial remedial agents. The story of the discovery of this new form of iron reads almost like a fairy tale and medical science has proved beyond question or doubt its remarkable blood-making power.

Acid Iron Mineral may be prepared in either liquid or the more convenient tablet form at any drug store. It contains no alcohol or injurious drugs and will not blacken the teeth. It has been especially noted that pale, puny children, weak, nervous persons and those encumbered by excess show improvement and exhibit increased strength almost immediately after starting treatment.

First Nebraska Woman Notary.

The first Nebraska woman to be commissioned a notary public was Miss Anna Saunders of Custer county in 1888.

Strange Beliefs.

Every now and then one runs across some one who believes everybody has a right to his own opinions.—Toledo Blade.

Largest Pin Factory.

The largest pin factory is in Birmingham, England, where something like 50,000,000 pins are manufactured every working day.

Islands Great Possibilities.

Smolen Island, near Kristiansund, Norway, is a flat spot of land possessed of immense areas of peat bog. It is doubtful whether there is any where a better location for the production of peat in large quantities.

Importation of the Elephant.

The first instance of an elephant being brought to western Europe was in 807, when the Caliph Haroun al Raschid presented one to Charlemagne. It was not until 1255, however, that this well-known and majestic animal went to England.

Worthy Beliefs.

I believe in working, not weeping; in boosting, not knocking; and in the pleasure of my job. I believe that a man gets what he goes after, that one dead done today is worth two deeds tomorrow, and that no man is down and out until he has lost faith in himself.—Elbert Hubbard.

Moving Done by Porters.

In Times there are no moving vans or carts, many of the narrow streets being impassable. Household belongings are changed from place to place by porters, who most any day may be seen staggering under chests of drawers and other heavy pieces of furniture. On occasion the porters will even transport, in huge baskets, persons who may be sick, or otherwise incapacitated.

Practice Kindness Now.

There are kindnesses, hospitalities, public and private duties, and fellowship in the civic and social life of one's calling and station which help to make our sojourn here satisfying and gratifying. These should not be postponed nor stunted. "I expect to pass through life but once. If, therefore, there be any kindness I can show or any good thing I can do to any fellow-being, let me do it now, and not defer or neglect it, as I shall not pass this way again." This always timely text is usually attributed to William Penn.—Humphrey J. Desmond.

WEALTHY MAN IS SLAIN BY BANDIT

H. B. Rhodes, Dry Goods Merchant of Chicago, Shot While in Auto.

WOMAN COMPANION IS HELD

Mrs. Gladys Jacobsen Drives to Hospital With Body—Says Rhodes Was Killed by Highwayman on "Lovers' Lane."

Chicago, Aug. 31.—H. B. Rhodes of 6228 University avenue, a dry goods merchant, reported to be wealthy, was shot twice and killed while sitting in his automobile with Mrs. Gladys Jacobsen of the Plymouth hotel along a stretch of shaded highway south-west of Evanston known locally as "Lovers' lane."

Mrs. Jacobsen told the Evanston police that a highwayman did the shooting in a revolver duel at a range of three feet. The police said they believed her.

"Lovers' lane" was the scene of two holdups last Saturday night and several others in recent weeks.

The woman drove Rhodes in his car to St. Francis hospital in Evanston where he died two hours later after an operation had failed. He was shot in the right chest and in the right temple.

Victim Was Married.

Rhodes was married and had seven children. When Mrs. Rhodes was told of her husband's death by the Evanston police she said she was more shocked to hear he had been riding with another woman than that he was dead.

"It seems impossible to believe my husband was out with another woman," she said. "Every day since we were married I thought he was the best of husbands."

Mrs. Jacobsen is a divorcee. On May 3, this year, she was riding in an automobile belonging to Frank E. Story, vice president of the Story & Clark Photo company when it crashed into a Madison avenue safety island. She said Story was one of the party and that they had just come, early in the morning, from Collins's restaurant. Three days later she started suit against Story for \$20,000 damages.

Mrs. Jacobsen told the Evanston police she and Rhodes drove out to "Lovers' lane" shortly past midnight after a ride through the city. They rode out on East Prairie road about five blocks south of Oakton street, where they stopped the car by the right side of the road.

Bandit in Cornfield.

Several clumps of trees shade the highway and corn fields extend to the roadside. Mrs. Jacobsen was on the side nearest the fields.

"We talked a few minutes," said Mrs. Jacobsen, "and then a voice right behind us said, 'Hush up!'"

At that, Mrs. Jacobsen said, both of them turned and saw a short, thin man with a gray silk handkerchief over his face, pointing a revolver at them. Rhodes, she said, reached quickly into the left door pocket, drew a .45-caliber army model automatic pistol and fired over her shoulder at the man. Although he was only three feet away the shot missed.

Bandit Shoots Rhodes.

Mrs. Jacobsen said the man turned and ran back of the automobile. Rhodes leaned over her to look out the side. While he was peering into the darkness the bandit appeared on the other side of the car.

He jumped to the running board and fired twice at Rhodes' head. Both shots struck and Rhodes sunk unconscious over the wheel of the car. Mrs. Jacobsen drove the automobile six miles to St. Francis' hospital, where a passing automobile party helped her get the wounded man inside.

Surgeons attempted an operation to remove the bullet from his head, but it failed.

BUICK

POWER, sturdiness and dependability have been qualities of Buick Valve-in-Head Motor Cars from the time that the name Buick first became linked with the automobile industry. Today, in equal measure as in the past, the Buick Motor Company is dedicated to a continuance of the policy that has caused the Buick car to occupy the position it holds in the public mind.

To all that the name Buick has meant in twenty years of automobile history, the new Nineteen Twenty One Buick brings that grace of movement, that refinement of every line and feature, that sheer beauty of design which inspire a pride of ownership in a fine motor car.

The new Buick line comprises seven models, one for every possible demand. Each has the famed Buick Valve-in-Head Motor, as rugged and powerful as ever, yet refined into a mechanism of unusual quietness.

The improved radiator, hood and cowl lines give a finished touch of trimness to the body, yet without any sacrifice of Buick individuality.

A more resilient spring suspension gives these new Buick models a riding comfort as delightful as their exterior appearance is pleasing.

Each of these seven models has its own value particularly adapted to a distinct class of service. All possess those inherent Buick qualities that assure the owner the uninterrupted use of his investment.

The bride is the lovely daughter of Mr. and Mrs. W. Baker and never looked prettier than on her wedding day, being attired in a handsome blue suit with hat and shoes to match. Mr. Morris is certainly to be congratulated on winning such a lovable girl as a life companion, whose winsomeness and many sterling characteristics has endeared her to the entire community. The groom is the son of Mr. and Mrs. W. M. Morris and one of the most substantial farmers of this community. Both have hosts of friends who join in extending best wishes for a happy life together, wishing every day to be as happy as on their wedding day.

Beliefs Concerning Teeth.

There are curious fancies about teeth. To dream about teeth was held to be a warning that sorrow was at hand, and it was still more unlucky to dream of one's teeth falling out. Many people still throw an extracted tooth into the fire for luck, and this is observed specially in the case of young children to ensure that the remainder of their teeth will come properly. Teeth wide apart is said to be a sign of future prosperity and happiness.

MANY SHOT DOWN IN BELFAST RIOTS

Fifteen Dead and Forty Wounded
in Street Battling in
Irish City.

MAGSWINEY IS NEAR DEATH

Hunger Strike of Lord Mayor of Cork
Has Progressed So Far That Even
If He Took Food It Would
Do Him No Good.

Belfast, Ireland, Aug. 31.—The day's
rioting was said by the police to be
the worst Belfast has yet seen. Up
to 1 p. m. it was definitely known that
four deaths had occurred as a result
of the disorders. These included
James Orr, a young woman who was
shot when troops opened fire to clear
a street in the unionist quarter, mak-
ing fifteen known dead and more than
forty wounded since Saturday night.
Numerous persons with bullet
wounds were admitted to the Royal
Victoria and Mater hospitals.

Shipyard employees, who were un-
armed, were on their way to work
this morning when they were attacked.
It is charged by the police by Sinn
Feiners, and shooting soon began. Sol-
diers arrived after the disorder con-
tinued and assumed a firing position
across York street, giving the crowd
three minutes to clear the thorough-
fare. Most of the people fled to cover.

At its early hour other disorders
occurred in the neighborhood of
Edwards road, a unionist quarter which
was attacked by Sinn Feiners yester-
day. Shops were wrecked, and to
clear the streets the troops opened
fire from an armored car.

Shops Closed as Shots Fly.

A party of shipyard workers, headed
by a man carrying the union jack, pro-
ceeded up North street, a wide thor-
oughfare leading from Royal avenue
to Shankill road, and wheeled into
White Tavern street, a residential
quarter where there were suggestive
piles of stones. Shots were fired and
the ranks of the shipyard workers
were reduced by several who were
rushed to a hospital. The shopkeep-
ers of North street promptly closed
their stores.

There have been 125 fires since Wed-
nesday.

Eleven Killed, Fifty Wounded.

Belfast's Saturday night was the
worst since what is popularly known
as the battle of Kashmir road. Eleven
persons were killed and nearly forty
wounded, many of them seriously. All
the killed were young men, the victims
of gunshot wounds.

A feature of the rioting was the
extent of the destruction of property
by incendiarism. The fire brigade had
an especially hard time during the
night in fighting the flames. Its work
was rendered tedious by the constant
rattle of machine guns. The Sinn
Feiners were in strong force and ap-
peared to be well supplied with arms
and ammunition.

Intense bitterness was displayed
during the fighting. There was a great
amount of wrecking of houses and
burning of furniture, both indoors and
on the street.

Report MacSwiney Past Aid.

London, Aug. 31.—The hunger strike
of Terence MacSwiney, lord mayor
of Cork, has progressed so far that he
is in such condition that even if he
took food now it would do him no
good, according to a statement by the
Bristol prison doctor to MacSwiney's
wife, who visited her husband.

Mayor MacSwiney is said to be
even more gravely ill than in last re-
ports, and a change for the worse
may come at any time in the next
twenty-four hours.

MINERS TELL WILSON TO ACT

Pennsylvania "Insurgents" Ask O. K.
for 27 Per Cent Boost
in Wages.

Wilkes-Barre, Pa., Aug. 31.—Three
hundred delegates from 100 insurgent
localities of District 1, United Mine Work-
ers of America, and delegates repre-
senting the miners of the Pennsylvania
Coal company, now on strike, met here
and adopted resolutions asking Pres-
ident Wilson to approve the minority
report of the anthracite coal commis-
sion. The resolutions also notify the
president that unless an answer is re-
ceived on or before September 1, all
men "will refrain from work." While
the delegates were in session five rep-
resentatives of the department of Jus-
tice were in the city to obtain first-
hand information of the proposed ac-
tion. According to unofficial informa-
tion, the award of the anthracite
commission allows the miners an in-
crease of approximately 17 per cent.
The minority report would give the
men about 27 per cent.

BRITISH TROOPS OUST ARABS

Sikhs Take Bakuah, Thirty Miles
Northeast of Bagdad—Slight Re-
sistance Made.

London, Aug. 31.—Bakuah, a town
30 miles northeast of Bagdad, which
was taken by Arab tribesmen in revolt
against British rule recently, was oc-
cupied by Sikh (British Indian) troops,
according to a dispatch from Bagdad.
Only slight resistance was offered by
the Arabs in the town, it is said. Else-

TWO FARMS

In that Famous Hanging Fork Valley,
168 Acres of Wheeler Bros,
and

166 acres of G.H. Pennington
TO BE SOLD

at Auction

WEDNESDAY, SEPT. 22nd,

In Lincoln County, Kentucky, on the Danville & Stanford
Pike. The Wheeler Farm 4 miles from Danville, 6 miles from
Stanford. The Pennington Farm 5 miles from Danville—5
miles from Stanford. These farms adjoin and comprise 334
acres and is one of the best tracts of land in Lincoln County to
be found in one body. To those who know the mere statement
of this land being on "Hanging Fork" is sufficient recommen-
dation and insurance of its fertility.

Remember we sell to suit the purchasers, so if you only
want a part of either of these farms, we will sell you a tract the
size you want. Also the opportunity to buy both farms making
over 300 acres to the man who wants a large farm.

We can "Cut the Cloth" for the "Little Man" or the "Big
Man."

DESCRIPTION OF WHEELER FARM:

Long frontage on the pike, a beautiful and attractive home
dwelling of 8 rooms, hall, 2 porches, concrete floors, cistern,
large stock barn with cistern, 2 tobacco barns 40 x 108 and
30 x 40, new garage and all out-buildings. Fine lawn to pike
with plenty of shade. Farm is well fenced and everlasting water,
3 concrete pools and springs. Everything on the farm is in
first class condition. 40 acres in corn, 12 acres tobacco, 33
acres timothy, 53 acres in Old Blue Grass Sod, balance in
clover and orchard grass. Don't take my word—look over this
farm and if you are looking for something good and desirable
you will be a bidder.

DESCRIPTION OF THE PENNINGTON FARM (Known as the Bosley Farm)

Long frontage on pike, has an 8 room old style frame dwell-
ing with ell-front porch and fine cellar, 2 concrete silos, each
16 x 50, close to new metal roof stock barn with room for 100
cattle, 10 acre barn, large mule barn, stock scales and cribs
combined, other out buildings.

Right on Hanging Fork, abundance of stock water.

85 acres in corn, 13 acres tobacco, balance in grass mostly
Blue Grass Sod. 50 acres of Hanging Fork Bottom on this farm
and if some one wants to buy this tract of bottom land alone we
will try to sell it separate. Balance of the farm can be sold in
2 tracts. We can fit you out in a 100 acre tract. Tell us what
you want.

Can run machinery over all of these farms. No waste
land. Strong fertile limestone soil in high state of cultiva-
tion. Investigate these farms before you buy.

Why has Swinebroad sold more real estate than any other
man in the business and will continue to do so? Come to this
sale and we will tell you why. A square deal to everybody.
The owners of the land I sell become bidders at my other sales
when they want another farm. There is a reason.

The Wheeler farm will be sold at 10 o'clock, sharp, rain or
shine. After dinner the Pennington farm will be sold prompt-
ly at 2 o'clock.

This may be the last chance to buy this kind of land so conveniently located.
Don't delay. Get in touch with "Real Estate Headquarters."

Easy terms. Possession January 1, 1921.

For further particulars see the owners at the farms, or W. E. Moss or R. H.

BIG HARM TO CROPS FROM GRASSHOPPERS

Situation Is Particularly Serious in Dakotas.

Post Destroying First Good Crops Farmers Have Had Since Beginning of Extended Dry Season—Poison Bait Favored.

Grasshoppers are infesting the farms in the northern portions of North Dakota, Michigan and Oregon east of the Cascade mountains, according to reports received by the bureau of entomology. In the Dakotas the situation is particularly serious because the farms have suffered from several years of drought, and the average farmer's bank account is much decreased by those years of extremely low crop yields. Now comes the grasshopper to destroy the first good crop the farmers have been able to grow since the beginning of the extended dry seasons. In many cases the farmer's predicament is desperate.

Young Grasshoppers Feeding on Clover.

with no funds available to enable him to fight the pest which threatens him with bankruptcy.

The United States department of agriculture has no available funds for the purpose, but is giving such assistance as it can toward putting control measures into effect.

Grasshopper bait, made according to the directions given below and scattered over the infested areas, is a highly successful weapon to check the pest.

Use 25 pounds of wheat bran; 1 pound of paris green, or white arsenic; 6 oranges or lemons finely chopped; 2 quarts of low grade molasses; and from 2 to 4 gallons of water.

Other baits are described in Farmers' Bulletin 747, United States department of agriculture, but there is very little difference in their relative efficiency. In most estimates the baits may be applied in the morning, but in semi-arid regions it should be put out in the evening to secure the best results.

HORSE'S FEET REQUIRE CARE

Doesn't Pay to Neglect Shoes of Animal—Permanent Injury May Be the Result.

Many a horse becomes incurably lame and has to be killed long before his time; and most often the cause is some trouble in the fore feet. Do not try to economize in the shoeing of your horses. Go to the best horse-shoer you can find, and let him have his own way. Have your horse shod at least once in four weeks. Avoid long calks. The higher the foot is raised from the ground, the worse for the foot. See that the shoe is big enough, and at the heels a little too big for the foot. See that your horse's feet are kept soft—especially in a long spell of dry weather. Remove his shoes if he stands in for a week or more, but give him bedding to stand on, so that he will not become footsore. No doubt you know these things yourself, but sometimes you forget them.

FARM FORESTRY MAKES FARMING PAY BETTER

1. Marketing timber profitably.
2. Supplying timber for farm needs.
3. Furnishing employment for men and teams in winter.
4. Making waste lands yield a profit.
5. Increasing the sale value of the farm.

PROVIDING SHADE FOR HENS

Quick Growing Plants Furnish Protection as Well as Food—Rape Is Particularly Useful.

Artificial shade for the chickens should not need to be provided more than one year even if one is a short-lease tenant. There are quick growing plants which will furnish protection and food as well. Rape is useful for this purpose; sunflowers of the various varieties, castor beans and sorghums of morning glories. For more permanent shade, put out currants, gooseberries and berries.

New Voting Precincts

Garrard County Court, Regular Term, August 23, 1920.

Present Hon. Forest Stapp, Judge.

In compliance with Chapter 64, Acts of 1920, Kentucky Statutes requiring the redistricting of the magisterial districts of the various counties of the State of Kentucky, thereby creating more voting precincts to conform to the law in regard to same, owing to the women of this Commonwealth being granted the right of suffrage, and the Garrard County Court having here-to-fore appointed H. COMMISSIONER'S SALE OF LAND

GARRARD CIRCUIT COURT.

G. M. Tremblay, et al., Plaintiffs, VS.

Ruth Rucker, et al., Defendants.

Pursuant to a judgment rendered at the August Term, 1920, the undersigned Master Commissioner will sell at public auction to the highest and best bidder, before the Court House Door in Lancaster, Ky., at 11 o'clock, A. M., or thereabouts, on

MONDAY, SEPTEMBER 27, 1920,

the real estate mentioned in the pleadings and described as follows:

All of said property is in Paint Lick, Garrard County, Kentucky, and bounded as follows:

1st. Tract: Being what is known as the L. C. Rucker home place and containing about 3 acres, and was deeded to L. C. Rucker, by J. L. Barnes by deed March 19, 1883, recorded in the clerk's office of the Garrard County Court in Deed Book No. 5, page 298, on the Richmond and Lancaster Turnpike and described in said deed, and further described by metes and bounds in a deed from Mackney & Wife to J. L. Barnes in Deed Book No. 5, page 100, in said Clerk's office, and both of said deed are referred to as part hereof and the description contained therein are made a part of this deed as if fully copied herein.

2nd. Tract: Adjoins the above said tract and conveyed to L. C. Rucker by deed dated October 17, 1908, from E. L. Woods, recorded in Deed Book No. 30, page 95, in said Clerk's Office, and is on the waters of Paint Lick Creek and on the Northwest side of the Richmond and Lancaster Turnpike, containing 19.24 acres, and is fully described in said deed from Woods to Rucker, which is referred to and made a part hereof and the descriptions therein made a part of this deed as if fully copied herein.

3rd. Tract, containing certain lots in Paint Lick, Ky., described as follows: Being certain lots in and near the town of Paint Lick, Kentucky, known as No. 1, No. 2, No. 3, No. 4, No. 5, No. 6, No. 7 and No. 8, described and contained in a certain map recorded in Deed Book No. 28, page 46, of said Clerk's Office and deed to said land is from A. J. Kild to L. C. Rucker, dated October 14, 1911, and recorded in Deed Book 29, page 68, in said Clerk's office. And said deed and said map are referred to for more specific description of said land and are made a part of this deed as if fully copied herein.

There is deducted from the second tract of land purchased from E. L. Woods by Rucker 2.55 acres, which was sold by L. C. Rucker and wife to the Garrard County Board of Education, by deed dated May 28, 1912, and recorded in Deed Book No. 35, page 163, in said Clerk's office.

The Commissioner will offer said lots separately and then as a whole and the bid or bids will be accepted realizing the most money for the said property. And he will offer said land in separate tracts and then as a whole and he will accept the bid or bids realizing the most money. The purpose of the sale is to divide the proceeds among the joint owners of the property.

TERMS:

The property will be sold on a credit of six months and the purchaser or purchasers will be required to execute bond or bonds with approved security due in six months for the purchase price, and bearing interest at six per cent from date until paid, having the force and effect of a judgment upon which execution may issue, payable to W. H. Brown, Master Commissioner of the Garrard Circuit Court, and lien will be reserved upon the property sold until the purchase money is paid.

W. H. Brown, Master Commissioner Garrard Circuit Court.

L. L. Walker, Atty for Pliffs.

It Helps!

There can be no doubt as to the merit of Cardui, the woman's tonic, in the treatment of many troubles peculiar to women. The thousands of women who have been helped by Cardui in the past 40 years, is conclusive proof that it is a good medicine for women who suffer. It should help you, too.

Eat Arsenic With Impunity.

In some parts of Austria, and especially in the hilly country toward Hungary, there exists the extraordinary custom of eating arsenic, one of the most deadly poisons. There, however, the peasants are so accustomed to its use that they are able to take huge quantities without harm, and they assert that the remarkable beauty of their women folk is entirely due to constant drugging with arsenic.

Wanted to Be "Parked."

Mother, aunt and little Rita were downtown shopping. Rita was quite tired, and they still had many places to go to before they had finished their purchasing. Presently they happened to pass through the restroom and the leather-covered chairs looked inviting to Rita. Turning to her mother, she remarked: "Couldn't you park me here while you and aunt do the rest of your shopping?"

WHAT'S DOING IN POLITICS

With the appointment of an executive committee of men and women to guide the policies of the campaign, the Democrats have about completed their organization. Chairman John L. Denny, appointed the following men: Judge Alex. P. Humphrey, Louisville; Senator Jacobie H. Martin, Callotte; Judge John A. Hardin, Harrodsburg; Col. P. H. Callahan, Louisville; Senator Charles M. Harris, Versailles; Hon. W. J. Sparks, Mt. Vernon; Hon. S. B. Bledsoe, Russellville; Mrs. S. M. Wilson, chairwoman Women's Department, has appointed the following women to advise with her: Mrs. John B. Gresham, Louisville; Mrs. A. M. Harrison, Lexington; Mr. John Fulton Hardestown, Miss Alice Lloyd Maxwell; Mrs. Sam R. Watkins, Covington; Mrs. Shelby House, Covington; and Mrs. R. B. Phillips, Paducah.

These two groups contain the leadership of Kentucky, and the quality of their attainments and character will doubtless attract the Independent out as well as the Democratic voter.

William Adams, Jr., adjutant of the Senator B. Whitten East of the American Legion, has accepted the appointment as chairman of the Cox and Roosevelt Clubs in Harrison County. Mr. Adams is a member of the State Executive Board of the American Legion, and is one of the many former soldiers who recognize in the party and purposes of the Democratic movement those for which they went to war.

The League of Nations, first good example for Warren G. Harding to follow, but it's good enough for him to stand from.

Here are a few of the oratorical, literary, and other talents who have been enlisted by chairman of the Speakers Bureau, Harry V. McChesney, to shell the woods for the Democrats in this campaign: Gov. James M. Cox, Franklin D. Roosevelt, William G. McVie, Congressman Heflin, of Alabama; Senator J. C. W. Beckham; Senator A. C. Stanley; Mrs. Clara Wilson Stewart; Miss Alice Lloyd; Mrs. A. M. Harrison; Gov. Charles A. Brough, of Arkansas; Helen Bruno, W. W. Davies, Mrs. Geo. Bass, of Illinois; Mrs. Borden Harlan, of New York; A. W. Barkley, D. H. Kinchloe, R. Y. Thomas, Jr., Ben Johnson, A. H. Rouse, J. Campbell, Cantrill, W. J. Fields.

Mr. H. B. Kinsolving, Jr., of Shelbyville, is another ex-serviceman who has become actively enlisted in the work of making Kentucky safe for Democracy this fall. Mr. Kinsolving was captain of the Field Artillery during the World War and served as instructor at Camp Taylor and Fort Sill. He has perfected organizations of Cox and Roosevelt clubs in every precinct in the state. His estimate is that there will be four thousand young men and young women Democratic clubs in the state when this work gets under way.

It is the vital duty of all organizations to awaken women to the necessity of registering in October so that they will not lose their vote in November. October 5 is registration day in all cities of the first four classes in Kentucky and also October 6, where ever fixed by ordinance. It is imperative that every white voter register on these two days.

HARDING WORRIES REPUBLICAN PRESS

Louisville, Ky., Sept. 8.—Wholehearted and unrestricted support of Warren G. Harding, the Republican candidate for president, is proving a trying effort for many Republican newspapers.

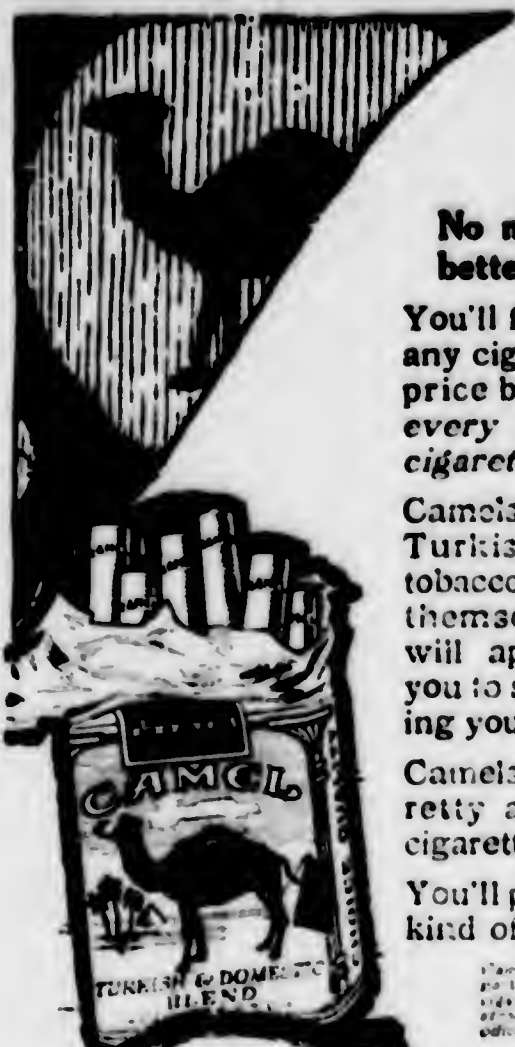

With Senator Harding's attempt to substitute his own plan of world peace for the League of Nations, already subscribed to by twenty-nine of the leading nations of the world, the majority of Republican press finds severe fault.

On this point the Philadelphia Public Ledger, Republican, predicts that Senator Harding "will not arouse any tremendous enthusiasm in this practical nation by rallying it to take a noble stand on the rotten platform of the Hague Tribunal, the most pathetic failure in history."

On the same question the St. Louis Globe-Democrat, a Republican paper, disagrees with Harding in his attempt to prove that Poland's troubles can be traced to the League of Nations. The League, it says, is an experiment that is entitled to every chance to make good.

"Poor old Marianne" satirizes the Philadelphia Record. "He has tried to straddle on the base of the League of Nations and is clearly doomed to a bad fall."

The Ohio State Journal, Republican, asserts that Gov. Cox makes out a strong case in his speech fund charges that can't be answered by mere denial.

Let's settle
this right now!

No man ever smoked a
better cigarette than Camel!

You'll find Camels unequalled by any cigarette in the world at any price because Camels combine every feature that can make a cigarette supreme!

Camels expert blend of choice Turkish and choice Domestic tobaccos puts Camels in a class by themselves. Their smoothness will appeal to you, and permit you to smoke liberally without tiring your taste!

Camels leave no unpleasant cigarette aftertaste nor unpleasant cigarette odor!

You'll prefer Camels blend to either kind of tobacco smoked straight!

Camels are sold everywhere in essentially sealed packages of 10 cigarettes, or ten packages (100) cigarettes, in a glassine paper covered carton. We strongly recommend this for the home or office supply.

CIGARETTES

From Wood to Silk.

Whole forests have been cut down to supply the world with pencils, but timber in still larger quantities is now required for the manufacture of silk stockings and other textile goods of artificial silk, for which wood is the raw material.

The Wise Wife.

A smart wife won't let her husband get up and give one of the children a drink after he goes to bed, because if she does, he will go around all the next day complaining that he was up all night and never got a wink of sleep.—Arkansas Thomas Cat.

Facts the First Request.

Facts are to the point that fact is to the facts. The degree of fact depends the strength of the one just as on the strength of fact depends the value of the other. That man is wisest to control who has digested the largest number of facts.

"HEARTS DESIRE"

THE GARDEN SPOT OF LINCOLN COUNTY

THE RICH 76 ACRE FARM OF MRS LILLIE M. GREEN

FORMERLY OWNED BY DAN TRAYLOR AND E. S. COWAN) subdivided

Public Auction

ON THE PREMISES

THURSDAY, SEPT. 23rd,

AT 10 A. M. RAIN OR SHINE.

Located two miles from the Stanford Court house on Goshen Pike, (Lovers Lane) on Logan's Creek. Every foot of this farm is bottom land and as rich as cream. It is the best farm for its size in Lincoln county or any other county. You may find as good land as this in other counties in Kentucky but we don't care where you go, you will not find any better dirt than this. Saying a "Heep", but as true as Holy Writ. This farm is a Jewel. Fertile, rich, in high state of cultivation, a producer and money maker. Choice, nifty stuff. It will make your mouth water to look this one over. "By their fruits ye shall know them". Just give the crops one look and be convinced that this place is all we claim for it and even more.

IMPROVEMENTS—An elegant two-story eight room residence, halls concrete veranda and porch and concrete walks. Splendid cellar, beautiful shade trees; pretty lawn, nice approach, large new tobacco barn, large stock barn, garage, granary, crib and all sorts of outbuildings. Fine water, well, cistern, etc.

It is an ideal place to live, choice location and in splendid neighborhood. Just the right distance from town.

This fine farm will be subdivided into ten acre tracts on up. From 12 to 15 acres with all improvements and add to it until you get exactly what you want. Located just right for dairy or truck gardens. This is splendid tobacco, hemp, corn land. It will produce anything. No richer land on the face of the earth.

This is certainly a Golden Opportunity for some one. It is seldom that you have a chance like this on this kind of property. Boys give her a look. She is all your heart could desire. One glance will show you that we are offering something out of the ordinary.

TERMS—exceedingly liberal and made known on day of sale.

For full particulars, blue prints etc, see, write or phone either Mrs. Lillie M. Green or C. H. Green on the farm, or
